Custom Garage Door Options

Due to our exclusive welded construction, ArmRLite's aluminum overhead sectional doors are capable of the highest degree of customization. Many of the options listed below are exclusive to ArmRLite due to our superior construction method.

GLASS GLAZING OPTIONS

Color, frosted, or clear polycarbonate thermoglazing up to 1" thick set in continuous vinyl channel and held in place with rigid plastic snap in bead.

FINISH OPTIONS

The standard finish is clear anodized aluminum. Optional anodized finishes include dark bronze and black anodized in stock for an upgrade. Custom Anodized finishes are available such as champagne bronze, medium bronze, ETC. Anodized finishes are the most resilient in corrosive environments. Includes a 20-year finish warranty except on installations within 1 mile of saltwater.

HARDWARE

Stamped 14 gauge galvanized steel. Heavy duty full ball bearing rollers with hardened inner race. Stainless steel rollers, hardware, cables, tracks, springs, and shaft is available.

CORROSION RESISTANCE

Stainless steel or powdercoated Corrosion Resistant Packages are available for an upgrade. Tracks and face hardware of our doors can be powdercoated or provided in stainless steel. Powdercoated steel components are not as resistant to corrosives as stainless steel, however, they do offer greater protection of these parts than standard galvanized.
